

# 17th Annual Conference on Fossil Energy Materials

The DOE Office of Fossil Energy's National Energy Technology Laboratory and the Oak Ridge National Laboratory are sponsoring the Seventeenth Annual Conference on Fossil Energy Materials. This is a showcase presentation of projects on DOE Fossil Energy's Advanced Research (AR) Materials Program, as well as selected and invited presentations from other programs of interest.

This year's program will reflect the AR Materials Program roadmap and thus provide insight into the future program direction. Registration information and a preliminary agenda will be mailed out shortly. As details of the workshop are confirmed, they will be posted on the NETL web page at [www.netl.doe.gov](http://www.netl.doe.gov) and on the ORNL web page at <http://www.ornl.gov/fossil/>. Please mark your calendar and plan to attend. Please let others who are interested in this program know of the conference by forwarding this postcard to them.

April 22-24, 2003  
Wyndham Baltimore Inner Harbor  
Baltimore, Maryland
